Nature of Business : Importer, Supplier & General Merchant
Main Products : Scrap from Ships
Principal Customer Industries & Geographies : Steel & Re-rolling Mills

YARD CAPACITY

Human Resources : About 250 well trained people
Area of The Yard : About 3 Acres or 18168 Sqm (Fully Impermeable Floor)
No. of Ship Demolished : About 35 ships (About 4,00,000LDT)
Annually Estimated Demolition Capacity : 1,20,000 Ton
Maximum Capacity of Ship to be Demolished : Any Length, Any Breadth, Any Depth

QUALIFICATION & EXPERIENCE OF PERSONNEL

More than 35 years expertise people are engaged here in operation.
HSE team is consists about 10 persons including Marine Engineer, Naval Architect, BSC in EEE and Diploma in

The company was incorporated in the name of KR Ship Recycling Yard since last 10 Years. KR Ship Recycling Yard is one of the leading ship recycling units in the Ship Recycling Industry at Bangladesh. Total area of the yard is 3 acres. So far organization has demolished around 35 nos. of different types of ships and LDT of these ships are around 4,00,000 MT (Approx). Organization has well trained permanent administrative staff and 100% trained outsourced workforce. Such facility can reduce, minimize and eliminate to the extent practicable adverse effect on the environment caused by the ship recycling. Though, majority labor force has been trained for working activities. We have well trained HSE team in Environment and Safety aspect specialist consisting 10 Members.

MISSION

To develop as leadership in ship recycling business and make a world class environment friendly ship recycling facility in Bangladesh.

VISION

To ensure all people are safe in our facility and make them use-to for every safety and environment culture and to conserve marine ecosystems and the environment by removing all waste and debris & recycle and to supply reuse valuable materials, including steel, in other industries.

CORE VALUE

Our Environment is our life
Respect for all human being
Safety is first priority
To ensure all people are trained

 (Electrical, Diesel & Joky)
 750 GPM Fire Pump Set
 Approved by FSCD

FIRE HYDRANT LINE
 With 54500 USG
 Water reservoir

FIRE EXTINGUISHER

SL. NO	DESCRIPTPTION	CAPACITY	COMPLIANCE DETAILS
1	Fire Pump (Electrical, Diesel & Joky)	750 GPM Fire Pump set	Approved by FSCD
2	Fire Pump (Water Reservoir)	54500 US Gallon	Approved by FSCD
3	Fire Extinguisher & Fire Line	60 Pcs & 1200ft	Hydraulically Calculated
4	01 Nos Oily Water Separator	Reservoir about 130 m ³	DoE Compliant
5	Asbestos Decontamination Unit	5000 NPU	EU Compliant
6	Incinerators	1100 Degree	DoE Compliant
7	Pavement	Load bearing capacity 40 TSF	0.083lh/CM ²
8	Impermeable Floor (01 Nos)	20 Sqm each and also have high pressure water jet	
9	Medical Centre	02 Emergency bed and well equipped	01 Full time Paramedics
10	Worker Welfare	First Aid, Medical Test, Provide PPE & Drinking Water (RO filter)	
11	Worker Canteen Facility	About 40 people can take lunch at a time	
12	Effective storm water arrangements in facility.		
13	Own Training Room facility (about 50 people training capacity at once).		

Crawler Crane

Barge Mount Crane

Magnetic Lifter

Mobile Crane

Pay Loader

Winch

Crane

Ambulance

SL. NO	DESCRIPTPION	CAPACITY	COMPLIANCE DETAILS
1	Crawler Crane (2 Nos) IHI & Yamaha Fujita	150t & 80t	Load tested by Lift SOL Bangladesh
2	Magnetic Lifter (4 Nos) Sumitomo	2t	Load tested by Lift SOL Bangladesh
3	Winch Machine (4 Nos)	75t	Load tested by Lift SOL Bangladesh
4	Ambulance (1500 cc)	01 pc	Toyota Townace
5	Weighing Scale	50t	BSTI Approved
6	Electrical Pole	2400 watt per pole	SLD, LPS
